Basis of Preparation

In the opinion of the directors, the company is not a reporting entity. The financial report of the company has been drawn up as a special purpose financial report for distribution to the members and for the purpose of fulfilling the requirements of the Corporations Act 2001.

The financial report has been prepared on the accrual basis of accounting as defined in AASB 1001, Accounting Policies, using the historical cost convention and a going concern assumption. Except where stated, it does not take into account changing money values or current valuations of non-current assets. Except where noted, the accounting policies have been consistently applied.

The financial report has been prepared in accordance with the requirements of the Law, all applicable Accounting Standards and other mandatory professional reporting requirements (Urgent Issues Group Consensus Views) that have a material effect with the following exceptions:

- AAS 22 Related Party Disclosures

Reclassification of financial information

Some line items and sub-totals reported in the previous financial year have been reclassified and repositioned in the financial statements as a result of the first time application on 1 July 2000 of the revised standards AASB 1018 *Statement of Financial Performance*, AASB 1034 *Financial Report Presentation and Disclosures* and the new AASB 1040 *Statement of Financial Position*.

Adoption of these standards has resulted in the transfer of the reconciliation of opening to closing retained profits from the face of the statement of financial performance to Note 12.

- Community Visitors Scheme
- Family Support

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICES (Continued)

Recoverable amount of non-current assets valued on a cost basis

The carrying amounts of all non-current assets valued on a cost basis are reviewed to determine whether they are in excess of their recoverable amount at balance date. If the carrying amount of a non-current asset exceeds the recoverable amount, the asset is written down to the lower amount. The write-down is recognised as an expense in the net profit or loss in the reporting period in which it occurs. In assessing recoverable amounts, the relevant cash flows have not been discounted to their present value.

Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receiveables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.

Acquisition

All assets acquired including property, plant and equipment are initially recorded at their cost of acquisition at the date of acquisition, being the fair value of the consideration provided plus incidental costs directly attributable to the acquisition.

Expenditure is only recognised as an asset when the entity controls future economic benefits as a result of the costs incurred, it is probable that those future economic benefits will eventuate, and the costs can be measured reliably.

■ Office Equipment	20% to 40% Diminishing Value
■ Fixtures and Fittings	10% Diminishing Value
